The RF levels are within limits for distances greater than 6.56 feet from the base of the tower.

The tower fence exceeds the 6.56 feet distance and appropriate signs warn the public and employees of the danger within the fence. Should it become necessary for an employee or service person to enter the fences area during normal operating periods, then the station would go off the air to minimize any possibility of exposure.

EXPLANATION OF LATENESS IN FILING

In May 1989, KDLF lost its manager with Don Hebert assuming the acting managers position. On 29 September 1989, Mr. Hebert required by-pass heart surgery. He was on sick leave until the first week of December 1989 when he returned to work under limited hours. Then on 25 December 1989, Mrs. Hebert became ill and was hospitalized. On 1 February 1990, Mrs. Hebert underwent surgery for cancer in the pancreas area. The surgery showed the cancer to be in the lymph systems and not removable by surgery. Mrs. Hebert immediately started radiation treatment. In the following three months, Mrs. Hebert was in and out of the hospital three times accounting for over 50 days and during this period she fell and broke her arm. As of May 24, 1990, Mrs. Hebert is hospitalized with pneumonia and kidney failure. All of these problems have resulted in Mr. Hebert being pulled from his job almost continuously since 1 October 1989.

In May 1990, it was discovered that Mr. Hebert had set aside the FCC forms to file them but had failed to do so. Immediately, on 16 May 1990, KDLF started announcing the pre-filing announcements, two times per day, for 10 days straight. Thereafter, they will be announced Monday through Friday, twice per day, until this report is filed.

**ORIGINAL**

Exhibit No. 1

At the present time, the station is unable to determine, from its files, whether Annual Employment Reports have been filed as required. Similarly, the station cannot determine the completeness of its public inspection file. Efforts are being made to obtain, from counsel or FCC files, missing documents.

JUL 30 1991

FEDERAL COMMUNICATIONS COMMISSION  
Supplement to Exhibit 1 OFFICE OF THE SECRETARY

When the renewal application for KDLF was filed on June 8, 1990, at Exhibit 1, it was stated that the applicant was unable to confirm that each of its annual employment reports had been filed as required. It has subsequently been able to determine that those reports had been properly filed.

Regarding the completeness of its public inspection file, once the annual employment reports were placed therein, and after consultation with counsel, applicant is confident that its public inspection file is now complete. It knows of nothing that is missing.

Applicant wishes to advise the Commission that the necessity of keeping the public inspection file current and up-to-date has been reemphasized to the general manager. That is also true of timely submitting any reports required by the FCC. In that regard, we have obtained from our communications counsel a memorandum dealing with public inspection file requirements which has been circulated to relevant station employees.
